

CRYSTAL REPORTS 2008: REPORT DESIGN I - FUNDAMENTALS OF REPORT DESIGN

RD11008

Course Description

Crystal Reports 2008® is a powerful, dynamic, actionable reporting solution that helps you design, explore, visualize, and deliver reports via the web or embedded in enterprise applications. This two-day instructor-led course is designed to give you comprehensive skills and in-depth knowledge to plan and create reports that will help you analyze and interpret information.

As a business benefit, you will find that this course is an in-depth approach to the entire report creation cycle from planning a report prototype to distributing a report.

Course Audience

The target audience for this course is report designers, new to Crystal Reports, who are responsible for creating and distributing reports.

Prerequisite Education

Not applicable for this offering.

Prerequisite Knowledge/Experience

To be successful, you must have working knowledge of:

- Windows conventions
- Basic database concepts

Additional Education

To increase your skill level and knowledge of Crystal Reports, the following courses are recommended:

- Crystal Reports 2008: Report Design II - Business Reporting Solutions
- Crystal Reports 2008: Report Design III - Report Processing Strategies

Level, Delivery, and Duration

This core instructor-led offering is an two-day course.

Applicable Certification

This is a recommended course for the Business Objects Certified Professional - Crystal Reports certification.

Additional Information

For more information, please contact <http://www.businessobjects.com/services/training>.
